

A brake warranty you can trust

Our industry-leading brake warranty covers your brake replacement services for three years or 40,000 kilometres, whichever comes first—at no additional cost.

Should a failure in workmanship or materials occur within this period, Kal Tire will replace the defective parts and install replacement parts, all free of charge to you (personal use vehicles only, some exclusions apply).

What's covered?*

- Kal Tire Brake Packages
- Brake pads, rotors, shoes or drums
- Hydraulics such as brake calipers or wheel cylinders
- Master cylinders, brake hoses and or lines

What parts will be used if I need to access the warranty?

To ensure you receive the highest quality brake work, we only use parts that meet or exceed original equipment specifications. This applies to both the original repair, as well as any subsequent services that are eligible for warranty coverage.

*The following repairs are not included within the 3-year/40,000 km warranty but are eligible for our standard mechanical warranty: replacement of ABS components, replacement of any electrically controlled part/device and warpage of brake rotors (brake rotors maintain a 90-day warranty from date of purchase).

Do you need brake repairs or service? Ask us for a no-obligation estimate.
